

Harvest Warriors Harvest Victory Center - Under Construction

As you know we have been working on a building for a convention center for the past two years. We are happy to report that the outside of the building is now finished. Praise the Lord! Here are some pictures of it, both outside and inside. Our next project is heating and air-conditioning for the building. This will cost us roughly \$20,000. When the building is finished, it will seat 500 – 800 people. Our vision is to be able to hold camp meetings there so that people can come to receive intensive teaching on spiritual warfare. Obviously, we cannot accomplish such a project on our own. We ask you to pray that God will open the hearts of those who can help us with this project.
